# IT'S ANTENNA SEASON!!

### **WHAT WILL 2024 BE ALL ABOUT - AT MARC?**

A question that I am being asked more frequently these days is what are the plans for MARC in 2024? Assuming I am re-elected, I have three major projects. The first one is to work on the upgrading the Reflector, redesigning the Club Website, and addressing issues regarding our social media activity. We have a new standing committee that will address these areas-- The Community Outreach and Communications Committee (COCC). The person most directly involved with this will be Kristin KC1ISI, who has stepped up and agreed to Chair the Committee. She is in the process of selecting members and developing a Strategic Plan for how this will happen. Most likely, as all things like this go, some people will feel that we're going in the right direction, others will argue we are going in the wrong direction, and others will have a wait-and-see attitude. The Important thing is the COCC will actually generate discussion and hopefully will actually do something. Depending on what Kristin's Committee comes up with, it is possible MARC maybe asked to provide some funding if they find that there is a need for commercial input such as for web design. We shall see – and we shall vote.

The second issue major initiative will be for Phase 2 of the Marconi Project. Phase 1 was to formalize the 8 Programs (POTA; Fox Hunts; CW Training; Satellite Comms; VE Sessions; Served Agencies; NCS Training and Amateur Radio - Balloon Science), buy the equipment and write the Operational Guidelines. All of this has been completed. All the Phase 1 money has been dispensed and all the goals have been met. We are now able to move forward with Phase 2, which is to find three or five Low Activity Clubs. These are Clubs that may need a helping hand to become more active. The main purpose of the MARCONI Project was to have MARC Elmer other clubs that were less active. I will work with the CT Section Manager Bud W1NSK, and the ARRL to identify and approach these 3-5 clubs to see if they might like to work with us to incorporate one or more of the MARCONI Programs into their club's activities. This would be in the hopes of stimulating activity and increasing their membership. We shall see if this Phase 2 becomes successful. We have already begun to work with other clubs for POTA and Fox hunting.

The third and last major initiative relates to the Nutmeg Hamfest. The Nutmeg Hamfest is the State Convention for Amateur Radio. Accordingly, we have an obligation to provide a premier product of which we can be proud. We have reopened the "Nutfest" after a hiatus of a couple of years during Covid. Clearly, based on last year's event, the pandemic has taken its toll on the on the Nutmeg Hamfest with decreased attendance, decreased vendor activity, increased costs, etc. This, our second year back, I am hopeful the event will be more successful. We have had to change venues because our usual hotel changed ownership. The venue we now use, Best Western Plus, has also changed hands from last year. We hope the new ownership will be able to provide more amenities than we had last year. I'm writing this article before the event on October 8, so I'm not sure how it turned out. Hopefully, well. Regardless, the important point is that the Nutmeg Ham Convention, in my opinion, can no longer function as a separate entity. There's growing concern among MARC club members that the Nutmeg Alliance is not running as it used to, and that the MARC membership is excluded from all input. I believe, the leadership of the Alliance needs to change. Accordingly, I will make a proposal next year, after much discussion and probably another Town Meeting, to have the Nutmeg Hamfest become a Standing Committee of the Meriden Amateur Radio Club. This might require another amendment to the Constitution. I am not sure. This change will not occur overnight and it will not be a quick decision. Again, we shall see. Have no fear, there will be enough angst to go around, for all involved.

Other than the above, I plan to just maintain what we're doing regarding regular Amateur Radio things, increasing our balloon activities, and continuing to reach out to and attract new Amateur Radio operators. I might want to explore developing an XYL/YL radio activity of some sort. I don't have any other major plans. Certainly, other things can happen that we will have to attend to. Of course, all this is predicated, from my perspective, on my being re-elected. If that does not happen, I will leave it to the next President to make such decisions and come up with his/her Strategic Plan. If all else fails, there is always Neil's donuts and coffee.

Now where did I put that chew-rag?

Ed W1YSM, President MARC

## FUTURE CERT TRAINING IN WALLINGFORD

The Wallingford Office of Emergency Management will be holding a CERT training class at the OEM starting in January 2024. Many of our club members are already on the team. If you would like to be part of the team let me know and I will email you an application. The course is about 8 weeks and does require you to take and pass some online FEMA courses before taking the course. Any other questions please talk to myself, Eric, Kristin, Ed, Rob other any other team member about what we do.

Thanks

Joe Murray N1LES

**KEITH N1NGV RECENTLY HAD TO SEND HIS FTDX10 TO YAESU AND THIS IS THEIR REPLY WHICH I THOUGHT WAS VERY INTERESTING**

**\*\*\* Repeated failure due to improper protective practices as suggested below may not be considered for future warranty repairs of this specific issue \*\*\***

Based on the issue found with your radio, please consider the following helpful tips: The FTDX10/FTDX101D/MP/ FT-710 AESS monitor feature has a 150mA internal protection fuse that protects the main-board from damage due to voltage exceeding 5vdc. The source of this voltage is from the use of monitors or converters with voltage output exceeding 5vdc, and/or excessive RF coming back on the radio due to high powered amplifiers, poor equipment grounding or unshielded cable connections.

This type of damage can be prevented by turning off the radio and discharging static electricity from your hands when connecting and disconnecting cables, using a good earth ground on the radio, external tuner, amplifier and using RF chokes on all transmission cables and antennas mounted outdoors as far from the ham shack as is practicable ( refer to FCC Maximum Permissible Exposure (MPE) rules SEC. 97.13, 97.503,1.1307 (b)(c)(d),1.1310 and 2.1093).

Additional tips and helpful products

[To help you select the correct converter and cable, please check these links to a converter and cable](#)

Yaesu knows to be compatible with your radio. CAUTION: These devices are not protected from high RF Exposure.

If you prefer using a HDMI monitor, we recommend this DVI-D cable and the HDMI/DVI Male to Female 3-in-1 converter. Do not use the referenced converter for use with a VGA port on a monitor.

## Secretary Report & Minutes of the Meriden Amateur Radio Club Bart Toftness N1BRL , Sect.

### BUSINESS MEETING SEPTEMBER 14, 2023 ZOOM

Business Meeting September 14, 2023, 10 in person and 33 members plus 1 guest via Zoom videoconference.  
Meeting was called to order by President Ed Snyder, W1YSM at 19:00 EDT

Present at the live in person meeting (10) were N1BRL, W1YSM, KB1JL, KC1OYN, WB1GFI, KC1DOY, KE1AU, KC1THU, K1LHO, and KC1STF. Attending via Zoom (33 +1) were. AB1DQ, K0OZ, K1DMS, K1JCF, K1LYP, K1PET, K1RCT, K1VDF, K1WJL, KB1EHE, KB1IFZ, KB1MFU, KC1ISI, KC1NQE, KC1QLS, KC1SA, N1API, N1BRI, N1GNV, N1LES, N1XXU, N1ZN, NA1L, W1BJG, W1BRY, W1DQ, W1EDX, W1LV, W3APC, WA1TRY, WB1GYZ, WJ1B, WV2LKM, and MaryAnn Palmarozza.

**Announcements** (W1YSM) The Business Meetings may not continue to be in hybrid format so watch for announcements. The club radio room is available to all members on Sundays by appointment.

**Secretary's Report** (N1BRL), August Business Meeting minutes were approved by majority vote. Five new applicants were each approved for membership. Michael Zelladonis KC1THU, Paul St. Amand KC1BQP, Steve Goodgame K5ATA, Cyndi Goodgame K5CYN, and Robert Hourigan no callsign issued yet.

**Treasurer's Report.** The current Treasurer's Report was read by Rick KC1OYN. The complete report is available to members upon request to the Treasurer.

**Station Manager's Report** (K1RCT), The Station Activity Manager reported Saturday morning activities at the OEM include about 15 to 20 people. The flea market returned \$606 to the club. The POTA style satellite station is being assembled. The "SAFE" messages on the reflector are sent by the Station Activity Manager to desensitize the reflector to allow more messages to be delivered to the members. The full SAM Report is available to members on request to Rob, K1RCT.

**New Constitution and By Laws** Following much work by the committee and a town hall meeting for members to review and ask questions we are ready for the members to vote their approval or rejection of the newly revised Constitution and By Laws. In attendance were 33 members including one officer via Zoom and 10 members including 4 officers at the OEM. One newly joined member abstained from the vote and no member present voted to reject the new Constitution and By Laws. All of the other 42 members present voted to approve the Constitution and by Laws.

**Standing Committees.** The September Activity Meeting will be 'Practical Information Regarding Test Equipment in the Ham Shack' by Alan Wolke W2AEW. October will be Josh Ellsworth from the Vintage Radio and Communications Museum. Brian N1BRI our Activities Chair will send announcements via 'all the channels' of upcoming activities so everyone will get the message. The repeater committee will meet and report back on the issues related to trying to 'link' our repeater to others.

**Other Activities.** Reports of activities of other club groups included activities of the CW Class, Contest Activations, Castle Craig 10-10 and KeyKlix. Rick KC1OYN reported on the upcoming Big E and opportunities to participate. Ray KC1QLS reported on the progress of the balloon project.

**Continuing Business** The monthly VE Sessions continue to attract multiple examinees including walk-ins. Starting with the October VE session the radio room and the large main room will be closed to members other than the VE team until after the close of the testing sessions. WARG/EMCOM has monthly training sessions for CERT. The CERT Team will participate in Celebrate Wallingford. Volunteers are needed for both the 5K YMCA road race and the Nutmeg Hamfest which occur on Oct. 8. Please contact John N1GNV to volunteer for the Nutmeg Hamfest. A new CERT class is planned for January 2024

The Technician License Class lead by James AB1DQ will start on Wednesday 20 September in cooperation with the Wallingford Park and Rec Program and last for 8 weeks with a VE Session as the last class.

**Community Outreach and Communications** is a new committee chaired by Kristin KC1ISI who is charged with 'what are we going to do with our webpage, reflector, forum and social media contacts'

#### **Voting Summary for the August meeting**

Five new applicants were each approved for membership. Michael Zelladonis KC1THU, Paul St. Amand KC1BQP, Steve Goodgame K5ATA, Cyndi Goodgame K5CYN, and Robert Hourigan no callsign issued yet.

August Business Meeting minutes were approved by majority vote.

Constitution and By Laws vote. 1 newly joined member abstained from the vote. No member present voted to reject the Constitution and By Laws. All of the other 42 members present including 5 officers voted to approve the Constitution and by Laws.

Meeting was adjourned at 20:50 Respectfully submitted, Bart Toftness, N1BRL

Post meeting note: New member Robert Hourigan KC1TKY, received his callsign 16 Sept. 2023

## Housatonic Amateur Radio Club Balloon Test “Highly Successful”

September 28, 2023 by [Phil Temples](#)

Members of the [Housatonic Amateur Radio Club](#), Stratford CT, Dr. J. Pallis, KC1MHU, Gary Moyher, WE1M, and Larry Reed, AB1JC, along with University of Bridgeport and University of New Haven faculty and graduate students met at the University of Bridgeport’s Marina Park on September 22, 2023. There they put together the components of a balloon they will launch in Texas next month during the annular solar eclipse as part of NASA and Connecticut Space Grant Consortium’s 2023/2024 Solar Eclipse STEM projects. Here they tested the equipment with a tethered balloon full of helium. It is estimated the balloon reached several hundred feet, which was sufficient to test the balloon, ground station, and the connections to University of Montana. The students practiced on the actual hardware they will use next month. All worked well, all was recovered and data was captured. This was a highly successful test. Students, university faculty and club members will fly to Texas next month to launch this payload during the annular solar eclipse and again fly to Texas in April, 2024, to launch another payload for the full Solar Eclipse.

## YOUR TREASURER, RICK KC1OYN IS MAKING IMPROVEMENTS!

We do our best to keep improving MARC. I'm pleased to announce a direct way to send any amount of monies to the club using PayPal..

We now have a PayPal direct link you can use to send any amount you wish to.

<https://paypal.me/MARCTreasurer>

If you use the above link you will be taken to the login page of your PayPal account. Enter your credentials and the amount you wish to send, approve transaction and the payment will be made. The original way to make a payment for club dues is still available. You can go to the club information page on our website.

[https://www.w1nrg.com/website/Club Information/Club Information.html](https://www.w1nrg.com/website/Club%20Information/Club%20Information.html)

Use the convenient pull down and select the correct amount, either \$20 for regular member or \$15 for senior (65 or older on Jan 1st) membership. You can also pay for the Xmas Party (\$35 per person) to be held at Serafino's on December 7th.

If both you and your better half are attending you can use the pull down and send two separate \$35 payments, or you can use the direct link ( <https://paypal.me/MARCTreasurer> ) and send one \$70 payment.

Of course you can hand me either cash or check to pay for anything club related whenever you see me.

Thank you for your time and attention. 73

Rick Becker, Treasurer

**THE 2023 NUTMEG HAMFEST WAS HELD THIS PAST WEEKEND ON OCT 8TH AND WE WILL HAVE A FULL REPORT WITH PIX'S IN THE NOVEMBER ISSUE OF THE KEY KLIX...**

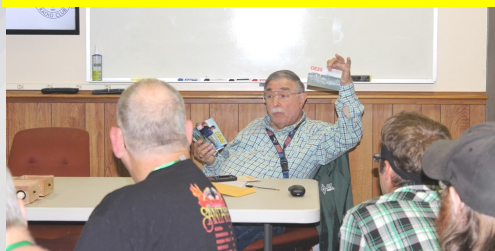

**THE AMATEUR RADIO CLASS AT THE OEM SPONSORED BY THE TOWN OF WALLINGFORD, PARKS & REC'S IS OFF TO A GREAT START**

**ROB K1RCT**

At the ARRL New England Division club presidents meeting (via Zoom) last Saturday, NE Division Director Fred Kammerer AB1OC introduced ARRL Headquarters staff member Sierra Harrop W5DX Public Relations and Outreach Manager, and asked that all clubs report any public service/community events be reported to her so she can publicize them via the ARRL Letter and news releases.

Email info to [newsmedia@arrl.org](mailto:newsmedia@arrl.org)

Jeff N1AKN working the Wallingford CERT booth at Celebrate Wallingford on 10/7.

Joe N1LES and Eric KB1JL working the CERT booth at Celebrate Wallingford on 10/8.

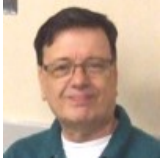

I'd like to acknowledge and thank the following members for volunteering at Celebrate Wallingford CERT Booth: Jeff N1AKN John Y. K1LYP Kristin KC1ISI Rob K1RCT Shawn KC1NQE John R. KB1MFU Rick KC1OYN Joe N1LES Eric KB1JL Steve KC1SA and his XYL Ruth & Dave Devito (unlicensed club member)  
Additionally, announcement that a new member CERT class is planned for January. If any club members are interested in joining the CERT team, they can email me for an application at [kc1isi15@protonmail.com](mailto:kc1isi15@protonmail.com).

Thanks!

Kristin KC1ISI

### Changes To The Castle Craig Chapter Certificate Program

I have decided to change up the Castle Craig Certificate program a little to modernize it and bring it up to the way other chapters handle local members.

History - Since the beginning we have had two local categories, the Local Member and the Honorary Local Member. The difference being was the Local Members were members of MARC and the Honorary Members were amateurs in the local ground wave area who could work our nets but were not MARC members. These were hams that would work the QSO parties and credit Castle Craig with their scores. The basic point structure was the same as a 4 Point Certificate.

The Changes - Effective immediately I am eliminating the Honorary Member category and making those Castle Craig Members full Members. This means that anyone in the local ground wave area that joins the chapter by working another member and had a number that end in "HL", example 1000 HL could drop the "H" and make it just 1000 L. The other member categories don't change, Honorary Charter, First State, or Country, DX, Other Certificates. One other change I am making is to the point structure for the basic certificate. All local members will be 8 Points which make them an Instant Qualifier for the Basic Certificate. Work a 10-10 member and he can apply for the Castle Craig Certificate. Also the "All Other Certificates" point value becomes 2 points. The point structure now is as follows:

<u>Member Type</u>	<u>Class</u>	<u>Points Each</u>
Instant and Special Qualifiers	IQ	8
Locals (Local members)	L	8
Honorary Charters	HC	3
Honorary Members	HM	3
First State or Country	FC - FP - FS	3
DX	DX	2
All Other Certificates		2

Castle Craig Members can upgrade their certificate value by working other members. This is what 10-10 Paper Chasing is all about. It is called Paper Chasing because it used to be done by mail and you would get a paper certificate by mail but now it is all done via computer and mostly just numbers and points are exchanged though some chapters like Castle Craig offer printed certificates that you can download from their web pages like ours at <http://www.1010castlecraig.org/>

-73- AI - N1API Castle Craig Chapter Head and Certificate Manager

Welcome to our newest members, voted in at our September Business Meeting...

KC1THU Michael Zelladonis  
 KC1BQD Paul St. Amand  
 K5ATA Steve Goodgame  
 K5CYN Cyndi Goodgame  
 KC1TKY Robert Hourigan
